

VCH Physiotherapy Practice Leadership Team Going Live Oct. 1!

On October 1, our inaugural Physiotherapy (PT) Practice Leadership Team for Vancouver Coastal Health (VCH) will be going live. The mandate of this team is to provide professional practice support for physiotherapists and support personnel across primary, home and community, acute, rehabilitation and residential care settings from urban to rural sectors of our health authority. Through leadership, coordination, case consultation, clinical competency support, knowledge translation, practice guidelines, education and workforce planning, this regional team will work to enable safe, standardized, accessible, appropriate and effective evidence-based physiotherapy interventions, as well as promote efficiency, innovation, and quality across VCH.

Over the upcoming weeks the team will be arranging to meet with managers and clinical PT and support personnel throughout the region to discuss their practice support roles.

From Left to Right (top row): Phil Sweeney, Maureen Duggan, Dolores Langford, Steven Longstaff, Moya Stokes

From Left to Right (middle row): Rosalyn Jones, Greg Noonan, Yee Ping Tse

From Left to Right (bottom row): Catherine LeCornu-Levett, Nancy Cho, Fabiola Varona
